

BERGHOLT

BERGHOLT is a collection inspired by modern-looking cross-cut *Travertine marble*, with a strong realism and versatile potential uses. One of its most distinctive features is the perpendicular cut of the *Travertine marble* that it emulates, giving rise to a stone surface with rich chromatic variety.

The collection comes in three warm colours in a 1000x2750 mm, 1000x1800 mm, 1000x1000 mm, 755x1510 mm, 600x1200 mm or 900x900 mm format. It is also available in a Shaped, All in One or Antislip finish, the last in a 20 mm-thick version for outdoor use.
